Quick Installation Guide

Driver Installation Version:V 1.0

1 Hardware installation

There are two ways to install the network card;

Note: The picture is a simplified schematic diagram, please refer to the actual product for details.

 Insert the network card directly into the USB port of the computer;

(2) Connect the computer USB port through the USB extension cord base (USB extension base needs to be purchased separately);

Note: When using a desktop computer, it is recommended to use a USB extension cord base to connect to the port on the back of the computer case (some desktop ports have insufficient power supply or cannot be used), and extend it to the Desktop computer usb ports.

2 Driver Installation
