

COMFAST

Quick Installation Guide

Version1.0
M0401077

1 Hardware Installation

1. Turn off the desktop PC and disconnect the power.
2. Open the main chassis, select an empty PCI-E slot on the motherboard, and remove the corresponding slot on the rear panel of the PC.
3. Insert the PCI-E NIC into the selected PCI-E slot and verify that all NIC pins are in contact with the slot; then secure the NIC to the chassis with screws; finally close the chassis
4. Plug in the PC again and turn on the PC.

Supported Operating Systems:

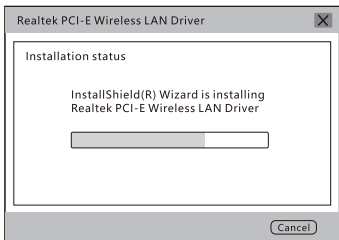

- Only supports windows 10 operating system

*The product shape is for reference only, please refer to the actual product

2 Driver Installation

1. open the corresponding driver folder, double-click "Setup.exe" to run the installer, you can complete the installation. (Note: If the installation file is a compressed package, you need to extract it to install it)
